THE TWO LABOR PARTIES

HOLDING CONVENTIONS IN CINCINNATI, OHIO.

The Object is to Unite as One Party—Delegates From Thirty States Present—Candidates for the National Ticket Coming Up—Other Conventions.
CINCINNATI, May 16.—This is convention day in Cincinnati. From thirty states there are delegates representing Union Labor, single land tax, Greenback, woman suffrage, prohibition, free trade and protective tariff principles. It is hoped to unite these elements into one political body under a new name. The Union Labor men wish to confine the issues to land, labor, money and transportation. The United Labor men want to unite with the Union Labor forces on the basis of the single land tax idea, and are willing to make concessions on any other issues.

ALTON J. STREETER.

Both the Union and United Labor forces are a unit on the Greenback theory, but the Greenbackers are divided on the single land tax idea. To devise a scheme as a basis of union is the great problem to be solved. The constitutional right of woman's suffrage may be declared but no compromise on the subject of prohibition is probable. About eight hundred delegates are now here, but others are expected. The Wisconsin, Tennessee, Massachusetts and Missouri delegates arrived this morning. Not more than one-half the delegates elected were able to attend the convention on account of the expenses attached to such a trip.

The most prominent candidates for president on the Union Labor ticket are Senator A. J. Streeter, of Illinois; ex-Congressman Gilbert De La Matyr, of Denver, Col., and Col. J. B. Weaver, of Iowa.

On the United Labor ticket are mentioned Congressman Henry Smith, of Wisconsin, and Dr. Edward McGlynn, of New York.

A reporter circulated among the delegates at the Gibson and found the following names prominently mentioned for vice president:

T. P. Rynder, of Pennsylvania; W. W. Jones, of Illinois, and John McMakin, of New York.

At the Gibson house, the headquarters of the Union Labor party, the prevailing topic of conversation and discussion this morning was the talk of union of the two labor parties.

The Ohio delegation held a caucus in the morning, with John Seitz, president of the delegation, in the chair. Speeches were made by Messrs. Seitz; J. H. Gardner, of Cincinnati; E. J. Curtis, of Trumbull county; R. H. Wheeler, of Cincinnati, and J. W. Northrup, of Salem. None favored the single land tax theory. It was decided to make no overtures to the Union Labor party.

John Seitz was appointed to represent the Ohio delegation in the convention when the single land question comes up. G. L. Harper was appointed committee on permanent organization; J. W. Northrup, committee on resolutions; C. C. Pomeroy, of Franklin county, committee on rules and order of business, and J. H. Gardner, committee on credentials.

The Union National executive committee was in session about two hours in the morning, the most of the time being spent in winding up its business of the past year. Twenty-eight states were represented on the committee. At noon the convention assembled at the Odion and ratified the following nominations of the executive committee: Temporary chairman, Col. S. F. Norton, of Chicago; temporary secretary, J. S. House, of Missouri; assistant secretary, I. F. McDonald, of Cincinnati; chief sergeant-at-arms, John Burrell, and assistant, W. F. Flood, of Cincinnati. The convention then adjourned until 2 p. m. The balance of the day will be spent in hearing reports of committees on permanent organization, credentials, resolutions and platform and conference.

The crisis of the convention will be reached with the report of the committee on platform. If an agreement can be had as to platform, little difficulty will probably ensue in finding candidates to offer up on the same. But just how a platform is to be forthcoming at all with the sufficient multiplicity of planks—single tax, Greenback, woman suffrage, prohibition, labor, etc., is a puzzle. A split in the union ranks in this connection seems not unlikely.

Dr. McGlynn, who is stopping at the Emery, was the center of an admiring crowd this morning.

"Yes," said he pleasantly, in answer to a question, "I am waiting for the convention to begin its work. I have very little to do now since, it seems, I am to be deprived of my calling as a clergyman for a time at least, so I amuse myself with dabbling in politics. But I know very little about politics, that is, I am by no means a practical politician."

Ohio Democrats at Dayton.
DAYTON, O., May 16.—Dayton is decorated from one end to the other in honor of the Democratic convention. Flags and streamers hang from the walls of all important buildings and the streets are crowded. It is very chilly and the linen dusters of some of the clubs made the spectators shiver.

Nearly all the delegates are here and the city is crowded.

On account of the high standing of delegates chosen by the Republicans, the older Democrats would like to have the delegation at-large to the National convention headed by some old-time Democrat like Allen G. Thurman, but from present indications it is probable that some of the younger men of the party will be chosen, and possibly Thomas E. Powell, Charles W. Baker, Calvin Brice, will be three of the four delegates-at-large.

The Democrats of this congressional district, including Montgomery, Miami and Preble counties, have nominated George W. Honk, of Dayton, for congress, to run against E. S. Williams, Republican.

Took a Week, But Bob Got There.
NASHVILLE, Tenn., May 16.—The state Democratic convention nominated Governor Robert L. Taylor for reelection to day, on the fortieth ballot, all the opposing candidates having been withdrawn. He received 1,061 votes. Over two hundred delegates refused to vote on this ballot. The convention was in session seven days, and a most bitter fight was made against Taylor, but he all along retained a majority of the delegates.

The Mexican Train Robbers.
NOGALES, Ariz., May 16.—Rolling, the man arrested at Huachuca Sunday, and alleged to be the leader of the train robbers, has been brought to this place and placed in jail. He denies complicity in the robbery, but says that the Mexican who was with him was one of the robbers. The Mexican after parting with Rolling took to the hills on foot. Part of Sheriff Shaw's posse searched the country for him but without success. Taylor, the other man under arrest, described the three Mexicans who were in the gang, and the Mexican officials claim to know their whereabouts and are confident of arresting them. It is believed that Rolling is a brother of Taylor under an assumed name. Rewards amounting to about \$4,000 have been offered.

Knights of Honor at Cleveland.
CLEVELAND, O., May 16.—A yesterday's session of the Supreme lodge, Knights of Honor, several changes were made in the constitution. One reduces the representation to one delegate from states having less than 500 members. Another gives suspended members sixty days in which to be reinstated without medical examination. The bond of the deputy supreme dictator was reduced from \$2,000 to \$500. In the evening the visiting knights were given an entertainment at Music hall.

Murdered and Placed On the Track.
PIEDMONT, W. Va., May 16.—A West Virginia passenger Central passenger train, coming north Monday afternoon, ran over the body of James Beewick, lying on the track, face down, near Blaine, Md. He was evidently murdered and placed on the track, as the trainmen, upon returning immediately, found the body cold and stiff. A pair of brass knuckles and an empty pocketbook were found about twenty yards off.

Murdered His Paramour.
TORONTO, Ont., May 16.—Tom Buckley, a notorious thief and divekeeper, kicked his paramour, Bertha Robinson, to death yesterday, crushing in her skull, and leaving her face almost unrecognizable. He was arrested. The woman was about twenty-four years of age, and was said to belong to a wealthy family in Brantford.

Another Suit Against Montgomery.
EVANSVILLE, Ind., May 16.—J. A. Harnett & Company, of St. Louis, instituted two suits in superior court Monday against Mr. George F. Montgomery for the recovery of about \$2,000 worth of lumber, located in this city, and \$500 damages, alleging that Montgomery obtained possession by fraud.

Morrison Wants the Vice Presidency.
CHICAGO, May 16.—Hon. W. R. Morrison has written to a prominent Democrat in Quincy, Ill., that he is a candidate for vice president, and asks that the state delegation to St. Louis go instructed, so that if the vice presidency is not given to Indiana he will stand a show to get it.

Will Form a Glucose Trust.
BUFFALO, May 16.—It is understood that a meeting of the glucose manufacturers of this country will be held in Chicago this week for the purpose of forming a trust in that article. It is thought that this action will result in an advance of 15 per cent. in the price of glucose.

Fatal Boiler Explosion.
CARO, Mich., May 16.—The boiler in the Caro woolen works exploded yesterday morning, killing Henry Howland and severely injuring James Randall, Frank Riddle, Albert Riddle and T. W. Wisner. The explosion was caused by low water in a patched boiler.

SAN FRANCISCO, May 16.—The American Refinery company yesterday made a reduction of one-eighth of a cent all around on sugar. This reduction was met once by the California company, and both refineries quote white sugars at six cents a pound.

Mines Shut Down for Want of Cars.
PITTSBURGH, May 16.—On account of the scarcity of cars on the Baltimore & Ohio railway several coal mines shut down Monday. There are several miles of cars loaded with coal side-tracked at Painesville waiting the arrival of boats to be unloaded.

Wanted to Go Home.
NEW YORK, May 16.—The friends of the missing hotel man, H. W. Howland, have received from New Haven a telegram, saying: "I am here. Send me some money to come home." They doubt the genuineness of the message.

The Cost of the Colorado Collision.
FOUNTAIN, Col., May 16.—The loss to this town by the collision on the Santa Fe road, yesterday, estimated at \$60,000. The loss to the railroad company will reach \$75,000.

GEN. WOLSELEY'S VIEWS

HE IS STILL OF THE OPINION THAT A WAR IS THREATENING.

And That England is Unprepared—The English Government Has a Narrow Escape in the House of Commons—England Snubbed by France—Foreign News.
LONDON, May 16.—It is undoubtedly the almost certain assurance that a war is about to burst upon Europe, a war that will involve most of the great powers, which is just now producing such a furore in England over the inefficiency of her defense. The excitement has not been evoked by either political party, but originated wholly with military men.

The first to voice the fact that a war threatens Europe and England is quite unprepared to meet the contingencies likely to arise was Lord Charles Beresford, of the navy. His statements were echoed by both army and navy officers, and finally confirmed by Lord Wolseley, the adjutant general, as also by the commander-in-chief, the Duke of Cambridge.

Wolseley having expressed himself very forcibly at a banquet, he was censured by Lord Salisbury. Wolseley, replying Monday evening in the house of lords, said he would stand by his banquet speech, although he had no intention of censuring the government or the secretary of war, Mr. Stanhope.

"The facts remain as I have stated," he said. "As long as the navy is as weak as it is now the army cannot hold its own, dispersed as it is all over the world. The defenses at home and abroad are in a bad condition. The military forces are not organized as they should be; they do not guarantee even the safety of the capital. I do not want to create a panic, but I maintain that the condition of the country is such that if a force of 100,000 men succeeded in effecting a landing, and were properly handled, there is no reason why they might not take possession of the country. I make this statement with a full appreciation of my responsibility."

The fact is the military men see that if they as non-partisans do not lift the question of defense above the heads of both parties, the Tory administration will not dare make the army estimates as high as are required.

The Government's Narrow Escape.
LONDON, May 16.—The narrow escape from defeat which the government experienced in the house of commons Monday night in the division on Mr. Henegge's amendment to the bill to provide for the payment of Col. King-Harmon's salary, has fairly dazed the Tories for the moment, and filled the hearts of the Parnellites and the Liberals with hope and exultation.

Fortunately for the Parnellite party was short ten votes and unfortunately for the Parnellites many of their most valued members are likely to be kept away from their parliamentary duties for some time to come.

For the first time since the passage of the crimes act, coercion has proved to be of substantial, even vital benefit to the Tories' majority. That act presumably passed and put into operation with the object of enforcing order in Ireland, has saved the government from defeat and become a means of enabling the party in power to continue in office indefinitely, through the imprisonment of a sufficient number of its opponents to reduce the minority beyond all possibility of successful obstruction or chance victory.

The powers conferred upon the government by the crimes act, coupled with the experience of the majority in Monday night's division, suggest an idea entirely new in parliamentary tactics, and one which will find many devotees, namely: When the minority becomes too aggressive or dangerously numerous curb its fighting propensities, and reduce its strength by putting part of it into jail. This idea has been carried out already to an extent sufficient to demonstrate not only its practicability but its positive benefits, though possibly not intentionally, and its development is certainly worth considering, in view of the test to which it has just been subjected.

BERLIN, May 16.—The Freassinnig Zeitung says: "In the opinion of the doctors even if the emperor's malady is of a cancerous nature, there is no reason why his life should be measured by an arbitrary calculation of months, let alone weeks."

The emperor is considering the advisability of extending clemency to army and navy offenders. His idea is to reduce life sentences imposed by naval and military courts martial to ten years if the conduct of the prisoners while in confinement has been good, and to liberate offenders sentenced to shorter terms after the expiration of three years.

Emperor Frederick walked about his room yesterday, and, with the permission of his physicians, transacted a considerable amount of state business. Professor Virchow, after examining the emperor's case minutely, told Dr. Mackenzie that he found himself very much puzzled, and even now unable to define the nature of the disease.

Why King Milan Visited Vienna.
VIENNA, May 16.—It is stated upon reliable authority that the sole purpose of the visit of King Milan, of Serbia, to Vienna, was to prevent Queen Natalie from making her proposed trip to Belgrade and not, as has been alleged, with a view of becoming reconciled to his wife, Queen Natalie, seeing that her visiting Belgrade at this time would lead to public scandal, is inclined to abandon the project. King Milan is immovably opposed to reconciliation with Queen Natalie, and she will probably domicile herself at Wiesbaden.

Foreign Notes.
The Brazilian senate has passed the bill abolishing slavery, which was passed by the chamber of deputies last week.

Gen. Boulanger has been frequently banqueting of late, and has invariably declared that an aggressive war is not to be thought of in France.

The London Chronicle's Rome correspondent telegraphs that he has heard that official or semi-official relations between England and the Vatican are to be restored in the autumn.

The queen of Greece, it is expected, will soon pay a three months' visit to St. Petersburg. Her daughter, Princess Alexandria, will marry Grand Duke Paul, the czar's youngest brother.

Twenty-five families of crofters, consisting 113 persons, embarked at Stornaway yesterday for Manitoba. They were accompanied to the vessel by troops of friends preceded and followed by pipers playing dirges.

The court of queen's bench has declined to allow the London Times to inspect the banking accounts of the National league and the Land league. The application was made by the Times in connection with the libel suits brought against it by Frank Hugh O'Donnell for the papers published on "Parnellism and Crime."

FISHING WITH DYNAMITE.
Two Young Men Horribly Mutilated at Lafayette, Indiana—One Fatally.

LAFAYETTE, Ind., May 16.—Frank Alkire and Edward Foster, two well known young farmers residing in the northern part of this county, went to the mouth of the Tippecanoe river Saturday night at 9 o'clock to kill fish with dynamite cartridges. They had thrown one cartridge into the water which had failed to go off, and each was holding a cartridge in the right hand. Foster lighted his, when both exploded, tearing Foster's right hand off at the wrist, putting off his right eye, and tearing Alkire's right arm off at the elbow and putting out both his eyes. Both men were also horribly burned about the face and body.

The nearest house was a mile away, and their cries of distress brought no response. Finally Foster took hold of Alkire, and, groping their way in the darkness over a hill 800 feet high, leaving a blood-stained path behind them, after two hours the injured men reached the home of Foster's brother, where medical assistance was rendered. Alkire has been in an unconscious condition since, and cannot recover. Fingers and portions of the arms blown off were found Sunday in the vicinity of the accident.

The Methodists.
NEW YORK, May 16.—Bishop Andrews presided at the opening of the Methodist Episcopal conference this morning. Rev. C. G. Trusdell, of the Rock River conference conducted the devotional exercises. It was decided to call the role of conferences for the presentation of resolutions or memorials for the last time. Rev. I. L. Roberts, of the Central Ohio conference, presented a resolution to relieve the general conference in future from delays and expenses in arguing about contested seats. It was referred to the committee on the state of the church.

The order of the day was then taken up. It was the report of the general conference committee on consolidation, unification and organization of church benevolence.

Died From Avery's Bullet.
HOPKINSVILLE, Ky., May 16.—Punk Smith, one of the parties engaged in the Smith and Avery shooting affray, just over in Montgomery county, Tennessee, last week, died Sunday from the wounds he received at the hands of Richard Avery, whose daughter, Annie, was the mother of a child by him, which child Smith was trying to steal when he and his brother, Ned Smith, were shot.

Suit on a Note Forty-Nine Years Old.
MILLERSBURG, Ky., May 16.—Israel Piper, one of the wealthiest men in Carlisle, has brought suit against Dinwiddie McKee, a farmer worth \$500,000, in this precinct, on a note given by him forty-nine years ago for \$10.60, with 6 per cent. interest from date, which is now \$41.37. McKee will only agree to pay the principal, \$10.60.

Confederate General Dead.
SAVANNAH, Ga., May 16.—Gen. George Paul Harrison died here Monday at seventy-four years of age. He was a major general in the Confederate army.

New York Democrats.
NEW YORK, May 16.—The Democratic state convention to choose delegates to St. Louis was called to order at a quarter before 1, in the Academy of Music, and Frederick R. Condit was chosen temporary chairman. The building was crowded with prominent Democrats and was handsomely decorated with flags.

WEDNESDAY EVEN'G, MAY 16 1888.

Free Turnpikes.

The question of free turnpikes is a matter in which the citizens of Maysville, especially the merchants, should take the liveliest interest.

No one has ever doubted in the least that such a system of roads would prove of untold advantage to our city, but the problem has all along been how to get control of the toll roads and convert them into free turnpikes. There has been a plan on foot for some time looking to a step in the right direction, and the matter has come to that point where definite and decisive action must be taken. This plan will be fully explained at the meeting called for to-morrow evening, and it behooves all citizens to be on hand.

Lead in immense quantities has been discovered in Jessamine County, in the cliffs along the Kentucky river. Cincinnati assayers pronounce it the finest in the United States.

Cornhillson shows a remarkable perseverance and is fighting his case with a pertinacity deserving of better results. He is to be taken before Judge Toney at Louisville to-day on a writ of habeas corpus.

The "colored brother" will make his appearance in the State convention at Lexington to-day. Davless County furnishes the delegate, and he will be the first negro to be honored with a seat in a Democratic State Convention in Kentucky. Truly "time works many changes."

The late Legislature appropriated \$350,000 to improve the charitable institutions of the State and complete the branch penitentiary at Eddyville. As Governor Buckner is to keep an eye on the work at Eddyville, the people can rest easy that the money will be used where it will do the most good. The completion of that work can now be confidently looked for.

A Chance For A Good Dinner.

Messrs. Rosser and McCarthy: Through your columns we will advise the residents of the West End to load their shotguns with heavy shot and get ready for the chicken thieves. Any one who will put a heavy load into one of the thieves shall have a public dinner given him—the shooter—the extent of dinner to be in proportion to quantity of lead given the thief. Besides this he will receive the thanks of

J. H. Walton and wife, after spending the winter in Florida, returned home last week improved in health and perfectly delighted with the country. We have never until now exactly understood what the Savior meant by the mustard growing to a tree so tall that birds built their nests in it, but it was all explained when we learned that the common Jimsonweed grew so large in Florida that a man can climb them.

MAYSLEICK.

Overcast, winter wraps and buffalo robes were brought into use last Sunday.

Mrs. Jonas Myall has returned from Hot Springs, much improved.

We are having very dry and dusty weather. A good rain is badly needed.

W. S. Mitchell and C. G. Worthington left last Sunday morning with a box full of bats for a fishing tour in Lewis County. They will tackle Kinney and perhaps Salt Lick.

Enoch Clarke, of Harrison County, a former citizen of this precinct, is visiting relatives in this vicinity.

The stoves that had been polished and placed away for next winter were brought into active service again Monday, while the mercury stood at forty above.

The cut worms are having a glorious time putting in their work on the corn and plants. J. A. Jackson still has plenty of nice cabbage and tomato plants for sale.

WASHINGTON.

It goes without saying that the weather is very disagreeable, but it has been worse.

On the 21st of May, 1883, considerable snow fell and it was much colder than on Monday.

John LaRue, of Shawhan, was visiting his aunt, Mary A. Wood, last week.

William Wood's arm was not broken but very severely bruised and sprained. He is suffering much, but is improving.

It seems that the great city of Cincinnati has at last determined that her citizens shall have an orderly, decent Sunday.

Any one with the least discernment can read the handwriting on the wall concerning whisky and the liquor traffic.

Miss Mary Kendrick is visiting at Mr. Geo. Wood's, where she used to live several years ago.

E. Taylor went to Bonham, Texas, last week, to look after the Saunders (Bean) fortune.

We suppose that it will be in order for Mr. Blaine, when he gets the renomination, to again measure swords with the Indianapolis Sentinel.

It seems that while such great States as Tennessee, Michigan, Texas and others are taking the vote on the liquor question, such an insignificant county as Mason is denied the privilege.

Could it be possible that any man who voted and worked against the Democratic nominee for Congress a short time since, can have the effrontery to ask office of the Democratic party? We hear that such is the fact.

That man has a very small soul, who, seeing the ruin wrought by rum and intemperance, has no word of condemnation for such things, but tries to carry water on both shoulders. The time is fast coming when we shall all have to show our heads on this question.

In consideration of \$4,550 cash, George Weddle has conveyed to J. D. Raymond thirty-four acres and twenty-five poles of land on the Mayslick and Sardis pike.

Prophecy of the Future.

In speaking of the exhaustion of the coal fields, our source of power, the author gives a striking picture of the fair green England of 300 years ago as compared with its present smoky skies and soot blackened surface, where the whole island throbs with the coal driven engine, and the waters are churned by the swift steamer; and then, in the role of prophet, he unfolds the future of a few hundred years, when almost certainly the "all beholding sun" will send his beams "through rents in the ivy grown walls of deserted factories, upon silent engines brown with rust, while the mill hand has gone to other lands, the rivers are clean again, the harbors show only white sails, and England's 'black country' is green once more! To America, too, such a time may come, though at a greatly longer distance." And one chapter closes with the following striking paragraph:

"Future ages may see the seat of empire transferred to regions of the earth now barren and desolated under intense solar heat—countries which, for that very cause, will not improbably become the seat of mechanical and thence of political power. Whoever finds the way to make industrially useful the vast sun power now wasted on the deserts of North Africa or the shores of the Red sea will effect a greater change in men's affairs than any conqueror in history has done; for he will once more people those waste places with the life that swarmed there in the best days of Carthage and old Egypt, but under another civilization, where men no longer shall worship the sun as a god, but shall have learned to make it his servant."—Review of "The New Astronomy."

Certain Preventable Diseases.

There are certain diseases, too, which in their very nature protest against their own existence. They are really nature's indignant onerous against human perversity; they are absolutely preventable, and just on that account difficult to cure, because the preventable cause is always happening again.

To this class belong diseases of the stomach, with scarcely an exception. Dyspepsia alone is the bane of thousands. It is fair to say that of the adult population not one person in ten is free from it, and yet dyspepsia is an entirely preventable disease, one for which which there is absolutely no excuse, for it arises in almost every case from self-indulgence or ignorance; and even where there is an inherited tendency to stomach trouble, care and attention to diet can almost invariably relieve it, and in time effect a permanent cure.

The misfortune is not only that people will not exercise sufficient self-denial to prevent the appearance of disease in the first instance, but that, unhappily, they will not learn by experience, and so prevent its recurrence; and thus, in too many instances, they are doubly sinners.—Demorest's Monthly.

TRIBUTE TO A WORTHY MAN.

A Memorable Episode in the History of Templarism—Resolution of Thanks.

"One of the most pathetic sights ever witnessed anywhere," says the Lexington Transcript, "was the election and installation of Horace January as Grand Commander of Kentucky Knights Templar at Maysville last week. Sir January is a young man, probably in the thirties, and in the prime of splendid manhood, but he is totally blind, his affliction coming on him about two years ago. When he became blind he was Generalissimo of the Grand Commandery, and wrote to the conclave in session at Danville, resigning his office, giving as a reason his blindness. His Fraters would not consent to his resignation, and with one voice at that time elected him Deputy Grand Commander, following this at the conclave just closed by electing him Commander. Maysville people and Kentucky Templars show the profoundest devotion to the new Commander, on his appearance in any public place he is greeted with enthusiasm. When he rose in the Maysville Opera House to be installed on last Thursday night he was greeted with long and continued demonstrations of delight, which only ceased when he lifted his chapeau and turning his splendid eyes, over which the darkness appears to have fallen forever, toward the great audience bowed his modest acknowledgement. Never before in the history of Templarism has such an episode as the election of a blind man to be Grand Commander been known. It was a tribute to the worth of the man, as well as an expression of sympathy with him in his dreadful affliction."

Before the adjournment of the Grand Commandery on Thursday last the following resolution was unanimously adopted, by a rising vote:

"Resolved by the Grand Commandery of Kentucky, Knights Templar, in grand conclave assembled, that the thanks of this grand body are due and are hereby tendered to the members of Maysville Commandery No. 10, and to the ladies (God bless them) and the citizens generally of the city of Maysville for the cordial welcome and the magnificent entertainment the members of our order have received at their hands during the last two days."

Our resident Sir Knights desire also to publicly acknowledge their thanks to the ladies who labored so faithfully to make their entertainments so successful; to the citizens generally who so handsomely decorated their homes and business houses; to their lady and gentlemen friends who assisted in the enjoyable concert the evening of the public installation, and to the City Marshal and his efficient corps of assistants who contributed their share to the success of the conclave. To one and all, the members of Maysville Commandery No. 10 return their grateful acknowledgements.

The Lexington Leader says: "The Knights Templar who visited Maysville last week speak in glowing terms of the hospitality and generous welcome they were the recipients of."

Bill Hester's Bullets.

Bill Hester, a colored youth only fourteen years of age, is in jail on a serious charge. For the past year has been making his home at Mrs. M. W. Duryea's, near Mayslick. He had a comfortable home and didn't care about leaving it. Monday his step-father, Levi Thomas, went out from this city and told Bill to pack up and come back to Maysville. Bill didn't see it in that light, and a quarrel ensued. During the fuss the lad rushed into the house and seizing a pistol fired twice at Thomas, neither shot taking effect. By this time, the situation had become too uncomfortable for Thomas and he made tracks for Mayslick, his stepson went out from this city and told Bill to pack up and come back to Maysville. Bill didn't see it in that light, and a quarrel ensued. During the fuss the lad rushed into the house and seizing a pistol fired twice at Thomas, neither shot taking effect. By this time, the situation had become too uncomfortable for Thomas and he made tracks for Mayslick, his stepson went out from this city and told Bill to pack up and come back to Maysville.

Thomas is the fellow who has been fined several times for a disgusting offense in this city, and Hester would have done a good thing if he had run him out of the country.

Hester is also accused of stealing \$15 from Mrs. Duryea, but he denies this charge.

D., will be pleased to know that he will arrive here Thursday night and will conduct the services in the Central Presbyterian Church for two Sabbaths, May 20 and 27, during the absence of the pastor, Rev. John L. and His Manager "Out."

Boston, May 16.—John L. Sullivan and his manager, Harry Phillips, are "out." In a South End saloon yesterday Sullivan said to Phillips: "You're no friend of mine. I thought you were, but I believe you to be as bad as that dirty back-capper, Holské. I've done with you entirely. You go your way and I'll go mine."

"All right, John," said Phillips, "shall I stop the show?"

"No," said Sullivan, "I'll be there to-morrow night. I owe you \$1,800, and I shall pay you every cent of it. After that I never want to set eyes on you again."

Eleven Rounds With Soft Gloves.

PATERSON, N. J., May 16.—Last night Austin Gibbons, of this city, and George Butler, of New York, fought eleven hard rounds with small gloves for \$200. Gibbons won first blood in the first round and first knock down in the third. Butler was unable to respond for the twelfth round, and Gibbons was awarded the purse.

DAMAGES BY WATER.

Another Break in the Mississippi's Banks.

Good News From Head Waters.

LOUISIANA, Mo., May 16.—The Mississippi river tore its way through the Sny levee, early Monday morning. The break occurred about one hundred and fifty miles north of here and at noon a volume of water 200 yards wide was pouring into the Sny bottoms, which extend for fifty miles along the Illinois shore, beginning at a point opposite Hannibal, Mo., and extending for many miles below this place. These bottoms contain the most fertile lands in the state of Illinois, and was covered with the finest wheat and corn crops in the country.

The water swept everything before it, and all of that portion of the bottoms south of the break is covered with water. The loss will run into the millions and will blight the prospects of farmers for the year. Thousands of acres of vegetables are also destroyed. The farmers, however, managed to save their live stock.

Falling at Head Waters.

WINONA, Minn., May 16.—The water is steadily falling and all the lumber and flouring mills are again running. As the water recedes, no further trouble is anticipated from high water as upper streams are reported falling.

Another Dam Goes into the Lake.

LUDINGTON, Mich., May 16.—The dam on Hamlin river, eight miles north of this place, has given way, and up to the present time twenty-three dwelling houses have gone out into Lake Michigan. The people anticipating the breaking of the dam, had all removed, and no one was injured.

What Fuller Says.

CHICAGO, May 16.—Hon. Melville W. Fuller was seen yesterday in reference to the attack upon him by C. H. Parker in a pamphlet issued at Washington. Mr. Fuller said he had never seen or heard of Mr. Parker, and could not conceive why the latter should bear any grudge against him. He knew of no man who could do such a thing against him, and said he knew nothing of the attack beyond what he had seen in the paper.

New York Democratic Politicians.

NEW YORK, May 16.—The Democratic state committee met last night and selected Frederick R. Goudert as temporary chairman of the state convention. Mr. McKane, of Kings county, was refused a hearing of his contested delegation. This will bar him out of the convention and is a victory of the Cleveland men. The convention will endorse Cleveland and probably select a number of new men on the state committee to replace Hill men.

Arrested for Counterfeiting.

TEXARKANA, Ark., May 16.—L. L. Briggs and wife, Sam Hughes, M. Caldwell and Frank Tuttle, were arrested at Hooks, Saturday, by United States officers. They are charged with making and passing counterfeit money, and in default of bail have been locked up to await the action of the grand jury.

A Big Oil Suit.

BUFFALO, N. Y., May 16.—The suit of Van Sickle against the Acme Oil company, for \$100,000 damages, for the use of the perfected oil still, was begun to-day. The defense is that there was no contract. The Standard Oil company is the real defendant.

POINTED PARAGRAPHS.

WASHINGTON.

Confirmation of Mr. Fuller's Nomination Delayed—Washington News Notes.

NEW YORK, May 16.—The Herald's Washington correspondent says: The nomination of Mr. M. W. Fuller, to be chief justice, is likely to be unacted upon until after the eight justices have gone on their circuits. There is not the remotest idea of his falling of confirmation, but the judiciary committee of the senate is a very conservative and slow moving body. It did not hurry with the nomination of Mr. Waite, and it will not hurry with the present nomination. There will also be quite a lively discussion in the senate when Mr. Fuller's name comes up for confirmation.

Mr. Turpie's Case.

WASHINGTON, May 16.—In the senate Mr. Hoar called up for action the report of the privileges and elections committee on the Turpie case.

Mr. Chandler dissented from the statement in the report, that the senate has no right to go into the question of the legality of the election of members of state legislatures. He said that while this proposition was generally sound, he could imagine cases exceptional that the senate would be bound to take action, and this rule would be an embarrassing precedent. Messrs. Hoar and Teller maintained that the committee report was in exact compliance with constitutional limitations.

Call of Railroad Grievance Committee.

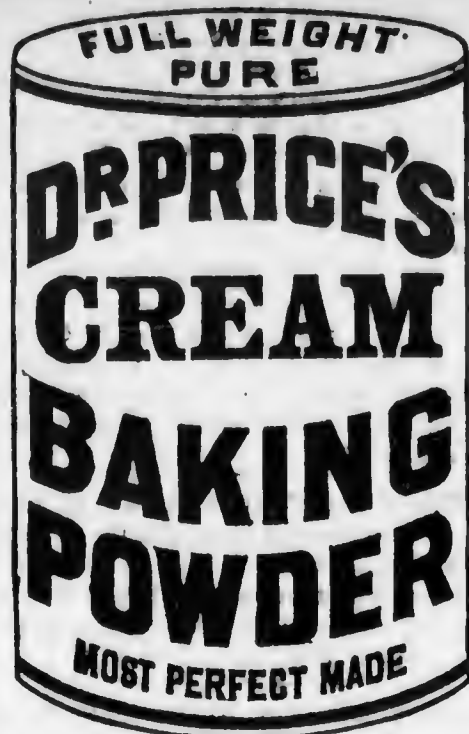

CHICAGO May 16.—A call has been sent out requesting the grievance committee of all the railroads in the country to assemble in this city on the 17th inst. Chairman Hoge, of the Burlington grievance committee, spent Sunday at Cleveland in consultation with Chief Arthur. It is rumored that a last effort will be made toward securing the interference of other railroad managers in behalf of arbitration with the Burlington officials, and that failing in this, there will be a renewal of open warfare with other roads suspected of being in sympathy with the Burlington.

The Sioux Reservation to Be Opened.

PIERRE, Dak., May 16.—The signatures required by Indians to open the great Sioux reservation will be completed within ninety days, and will be ready for settlers immediately thereafter. Specials from Huron, stating that the great Sioux reservation will not be open for two or three years, are not true. Already many land seekers and speculators are here waiting for the Indians' signatures.
